WOODBRIDGE®

MODERN ONE PIECE TOILET

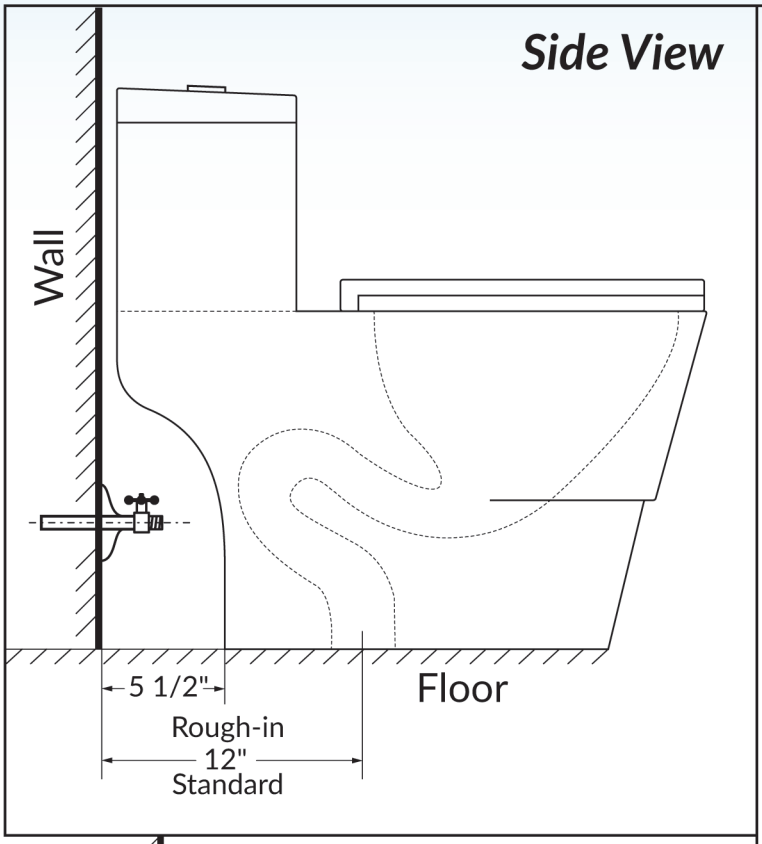
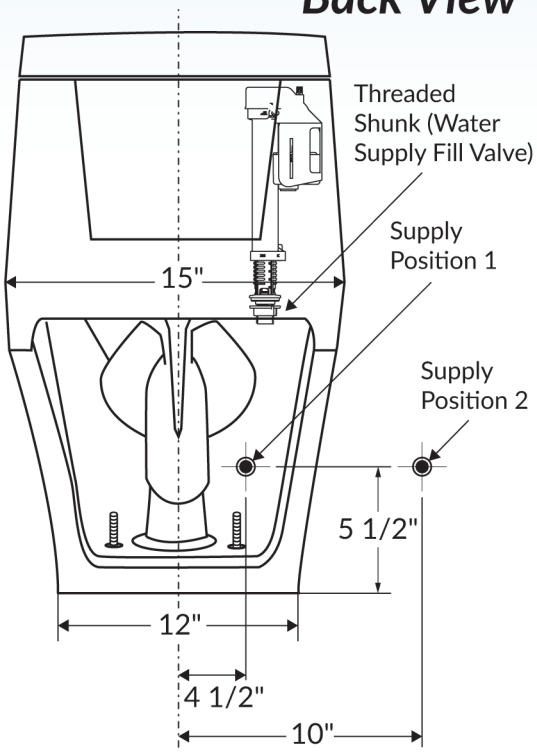
Side View

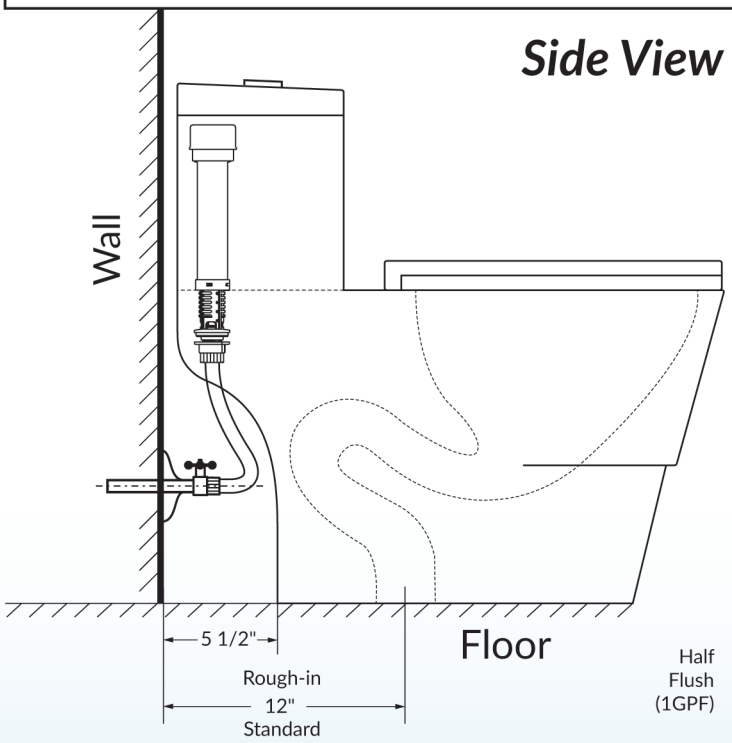


Back View



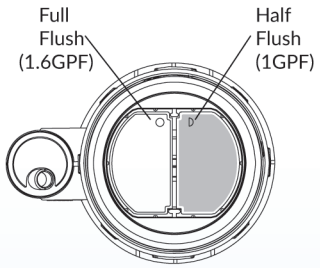
You may connect the water supply line using two different options. In both options distance from the floor to the center of the supply line must be 5 1/2". In Supply Position 1, the water supply is located behind the toilet and is offset by 4 1/2" from the installed toilet's center. In supply Position 2 the water supply line must offset by 10" from the center of the installed toilet.

Side View

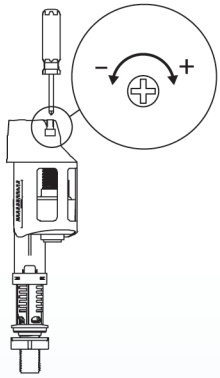


Half Flush (1GPF)

Tank Top View (Inside)



Flush GPF amount is factory set. No additional adjustment is required.



Adjust the water level in the toilet's tank if neccessary by rotating the adjustment screw to increase (+) or decrease (-) a level of water in the toilet's tank.
